MITRE.COM

TEAMWEAR & EQUIPMENT  
2021-2022

# REVOLUTIONARY INNOVATION. ENGINEERED BY MITRE.

## HYPERSEAM

With the accuracy, speed and power of a stitched ball, and the control and consistency of a bonded ball, Mitre's innovative Hyperseam technology delivers a ball that plays better, lasts longer, and moves faster. Hyperseam. In-play consistency. Low maintenance. High durability.

## PROFLOW

Delivering unrivalled moisture control. Our ProFlow apparel range are crafted using breathable performance fabric designed to wick sweat away from the body. Helping you keep dry and comfortable in high intensity situations.

## 14 PANEL

Maximum accuracy, without sacrificing speed or power – that's what our 14 panel construction delivers. Our unique 14 panel design remains stable at high speeds with superior aerodynamic control, helping you strike the ball straight into the top corner.

## PROSHIELD

Protection in all-weathers. Performance fabric helping to shield you from the elements. Designed to keep you warm and dry in the toughest training conditions. A collaborative innovation with leading outdoor sports brand Berghaus.

## COMPRESSION

Intelligent compression - boosts performance on the pitch and accelerates recovery off it.

## AIRCELL

AirCell is a totally breathable, ultra lightweight guard technology. Designed for use at all levels of the game, it keeps the leg cool, while also delivering the protection you need. Professional quality. Total breathability.

# FOOTBALLS

# REVOLUTIONARY FOOTBALL

## ENGINEERED BY MITRE

In some ways, the world's beautiful game has changed radically in the last decade. There's more glamour, more professionalism, yet at its heart, it's still pretty much the same: one pitch, a pair of goals and two teams competing on the basis of skill and desire.

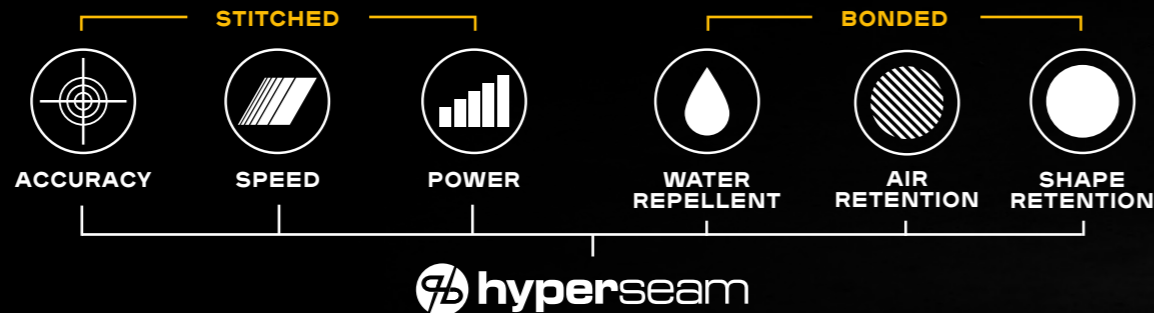

Football is still played every day on muddy pitches, sun-drenched parks and school playgrounds around the world – this is where the true spirit and buzz of the game is found.

And this is where you'll find Mitre, the world's original football brand.

Imagine the powerful, accurate, speedy performance of a stitched ball, combined with the sturdy, consistent feel of a bonded ball. Mitre delivers this by fusing both construction methods into one. Hyperseam™ panels are joined together with high-tension machine stitches and Polyurethane sealed seams. The result is a ball that plays better, lasts longer, and moves faster.

- Highly accurate. Reduced resonance when striking for better in-flight accuracy
- Easy control. 5mm foam backing for increased contact time on impact
- Fast and powerful. Increased outer tension to increase speed off the foot
- Water repellent. Fully sealed seam ensuring almost zero water uptake
- Consistent feel and performance. Touch and shape stays the same in all temperature conditions
- Air retaining. Butyl bladder requires less re-inflation than a latex bladder
- Shape retaining. Engineered to guarantee consistent size and shape retention

## 14 PANEL CONSTRUCTION

Unique configuration of 8 triangles and 6 diamonds provides consistent energy transfer through the ball.

## RUBBER PLY

Interceding rubber layer separates foam lining to boost strike power transferred from boot to ball – resulting in exceptional speed and performance.

## THE BLADDER

Laminated butyl synthetic bladder is designed to deliver rapid speed, intense power and increased bounce – whilst keeping ball shape throughout intense matches.

## HYPERFOAM

Crafted with dual Hyperfoam lining – ensuring maximum power in every strike. A soft-feel and cushioned touch increases player control and confidence on the ball – without compromising power.

## EMBOSS SURFACE

Unique textured surface is engineered to deliver a pure in-flight path, increased grip and ultimate control. Embosses grooves provide up to 400% more stability at speeds of 30-45mph vs a rivalled flat panel construction.

## THE OUTER MATERIAL

Versatile microfibre synthetic-leather outer provides consistency throughout the whole season – with every kick. The tough material resists abrasion and remains sturdy.

# MITRE DELTA MAX

OFFICIAL MATCH BALL OF THE EFL & SPFL

Suggested Retail Price **£115.00** Size(s) Available **5** AGES **14+**

**5BB1999 A94**

## CUSTOMISED FOOTBALLS

Need to add your club badge to your footballs? With Mitre it's easy. We can do a name or simplified badge for your football club. We would need to see the design prior to accepting the order.

### 1. CHOOSE A CUSTOMISABLE FOOTBALL

Selected Mitre footballs can be printed with either your logo and text or just text.

#### LOGO / TEXT

Printed above the Mitre logo. Logo max. 20mm square. Text max. 50mm length.

Heat Printed using our Special Made Ball Printer. Not to be used on Concrete.

### 2. YOUR LOGO

For optimum results your logo should be a flat simplified shape (no gradients or intricate lines), supplied as a vector file. For artwork supplied flattened or raster format, such as JPG, BMP, TIF, an artwork fee will be charged for turning the supplied artwork into a usable design.

The example to the right shows how a logo may need to be simplified.

### 3. CHOOSE LOGO AND / OR TYPEFACE COLOUR

Ask your Mitre representative for options on colour and fonts

### 4. CHOOSE A QUANTITY

#### PRICE PER FOOTBALL:

Min 25 Balls	POA	200-400 Balls	POA
50 Balls	POA	500+ Balls	POA
100 Balls	POA	Logo Re-Draw	POA

# PRODUCT CARE INSTRUCTIONS

## GARMENTS

Our garments are made using high quality materials under strict quality control conditions. It should be noted that most fabrics discolour due to staining by substances such as mud and grass which may not be entirely removed by washing.

We recommend removing as much mud from the garment as possible before soaking/washing. Follow detergent manufacturers' instructions particularly with powders/liquids designed for heavy stains. Avoid products containing chlorine bleach that may damage fabrics, trims and decoratives.

Soaking garments in water and detergent as soon as possible can reduce discolouration. Use at least an equal amount of water by volume to that of the garments being soaked/washed. Make sure all parts are fully immersed. Pale garments such as White, Yellow, Sky and Tangerine may require more attention and the use of pre-wash soakers will assist in the removal of stains.

Do not overfill the washing machine with garments since if the ratio of water to garments is too small, dirt can easily be re-deposited. This can stain all the garments grey.

We do not recommend fabric conditioners on jerseys and shorts which may cause a build up of film on fibres. This can prevent the washing process from penetrating filaments and dislodging dirt. However, socks will benefit from fabric conditioners and softeners.

Mitre will not accept liability for discolouration or damage to garments which is attributable to staining caused by elements foreign to the materials used in manufacture.

## SHIN GUARDS

Mitre shin guards should be wiped clean using lukewarm water and be allowed to dry naturally at room temperature. In order to prevent damage to the shin guard, do not place on hot surfaces such as radiators.

## GOALKEEPER GLOVES

The latex rubber used to manufacture Mitre gloves is of the finest quality giving optimum performance in both wet and dry conditions. Please take great

care as due to the soft nature of the material, we cannot guarantee protection against high and sustained abrasion.

To ensure the best grip, latex should be washed in warm water prior to first use. Never use detergents or soaps and never use water above 30°C.

All latex palms should be moistened with clean, warm water before each use.

Hang gloves individually. Do not dry gloves in direct heat or near radiators.

## FOOTBALLS

Care should be taken when inserting the inflation needle into the ball to prevent damaging the valve and bladder. Mitre Glycerine should be used to allow the needle to be inserted smoothly. This is particularly important on the initial inflation as the wall of the bladder can be punctured if the needle is pushed too far before the air is pumped in.

The amount of pressure in the ball will significantly affect the performance and durability of the ball. Pressure should be checked regularly as not only do balls gradually lose air through the wall of the bladder, but temperature can also alter the pressure by 1 psi for every 10°C.

The recommended pressure is printed on the ball and this should be checked regularly using a Mitre pressure gauge. Do not exceed the recommended pressure, this may damage the ball and its performance.

If the ball gets wet during play, it should be dried in an airy place and not force dried with heat as this will damage the ball.

# SIZE CHART

## APPAREL

APPAREL SIZE	CHEST SIZE	WAIST SIZE
<b>YOUTH (VAT FREE)</b>		
<b>XS</b>	<b>24 / 26"</b>	<b>20 / 22"</b>
<b>S</b>	<b>26 / 28"</b>	<b>22 / 24"</b>
<b>M</b>	<b>28 / 30"</b>	<b>24 / 26"</b>

<b>MINI</b>	<b>12-2</b>
<b>JUNIOR</b>	<b>3-6</b>
<b>SENIOR</b>	<b>7-12</b>

## GUARDS

GUARD SIZE	HEIGHT RECOMMENDATION (FOOT)
<b>XS</b>	<b>UNDER 3.9FT</b>
<b>S</b>	<b>3.9-4.6FT</b>
<b>M</b>	<b>4.6-5.3FT</b>
<b>L</b>	<b>5.3-5.9FT</b>
<b>XL</b>	<b>5.9-6.6FT</b>

## CHOOSE THE RIGHT SIZE

### Tops

If your height suggests a different size to your chest measurement it is better to follow the chest measurement for the best fit.

If your body measurements fall between two sizes you could order the lower size if you prefer a tighter fit, or the higher size for a looser fit.

### Chest

Measure around the fullest area of the chest with a flexible tape measure, holding the tape measure horizontal

### Waist

Measure around the narrowest part of the waist, keeping the tape measure horizontal.

<b>SIZE 1/MINI</b>	<b>0-3</b>
<b>SIZE 2/MIDI</b>	<b>3-6</b>
<b>SIZE 3</b>	<b>6-9</b>
<b>SIZE 4</b>	<b>9-14</b>
<b>SIZE 5</b>	<b>14</b>

# BALL USAGE & SUITABILITY

## BALL CARE AND PRESSURE

Care should be taken when inserting the inflation needle into the ball to prevent damaging the valve and bladder.

The amount of pressure in a ball will significantly affect the performance and durability of the ball. Pressure should be checked regularly as not only do balls gradually lose air through the wall of the bladder, but temperature can also alter the pressure by 1 psi for every 10°C.

The recommended pressure is printed on the ball and this should be checked regularly with a Mitre pressure gauge.

If the ball gets wet during play, it should be dried in an airy place and not force dried with heat as this may damage the ball.

## BALL QUALITY AND SUSTAINABILITY

### Professional

Designed to deliver performance and manufactured to highest and tightest specification. Developed with professional clubs throughout Europe, Mitre professional footballs deliver the ultimate in power, accuracy, consistency and control.

### Match

Mitre match balls are designed for all ages to perform at the highest levels of the game week after week. That's why Mitre balls are used by more amateur clubs than any other brand. So whether you're a semi pro or a junior player, Mitre has a match ball to suit your game.

### Training

Developed to perform for hour after hour of rigorous training, Mitre training balls provide great playing characteristics with long-lasting durability and reliability.

### Recreational

For the stars of the future, ideal for a kick-about in the park or a game of heads and volleys and other skills practice. Mitre recreational balls are specifically designed for fun and leisure. Check icon on ball for specific surface and weather usage.

## DIFFERENT SURFACES

### Astro Turf

There are many different types of Astro turf, from the pure synthetic fibre to filled fibre where fillings can vary from sand to ground rubber. All have one thing in common: they react with the ball like hard ground, increasing the bounce. Also many have much less drag/grip on the ball than natural turf. Because of this we normally recommend reduced ball pressure to 7-9 psi to slow down the ball and grain finish material to increase the drag. A part worn shiny ball also gives this effect. Many artificial pitches are surrounded by fences and walls which can easily damage the ball so we highly recommend more economic balls to reduce the cost of replacing damaged balls.

### Synthetic Surfaces

Asphalt and treated concrete. Not all synthetic surfaces are Astro turf. On most, abrasion is the main problem and we have a range of economic training balls and high abrasion-resistant match balls which will cope with these surfaces.

### Sports Hall

Wooden tiles, carpet and indoor pitches. All are dry so water absorption is not a problem, but the abrasiveness varies widely so it is important to consider this before recommending any particular ball. Some games have special requirements such as low or reduced rebound and Mitre has reduced rebound balls for Futsal, indoor and Futebol de Salão.

### Natural Turf

Natural turf pitches vary enormously in different countries, different seasons and different levels of play. As well as performance level we need to consider abrasion, water absorption and required use before recommending balls for natural turf. If the ball is to be used for training only, then economy and durability are most important; if to be used for a match or match practice, then performance is more important.

# BALL USAGE & SUITABILITY

## BALL SIZE RECOMMENDATIONS

SIZE 5	SIZE 4	SIZE 3	SIZE 2 / MIDI	MINI
14+ YEARS	9 - 14 YEARS	6 - 9 YEARS	3 - 6 YEARS	ALL AGES
