*Stuart
Surridge*

In 1867 Percy Stuart Surridge created a sports brand. He applied the principles of tradition and craft, with the concept of bringing innovation to improve performance, creating product defined by craftsmanship, originality and Britishness.

Today, we are a brand that not only connects with our markets and consumers but keeps with our origins and principle's set over 150 years ago.

Surridge Sport head office, warehousing and production facilities are based in Burnley, Lancashire. The site has in house embroidery, manufacturing, print and embellishment facilities along with a dedicated design and product development team and a fully equipped distribution/customer service team. This allows Surridge the flexibility to manage and service its portfolio of accounts simply and efficiently, maintaining day to day fulfilment of orders as well as looking to make improvements and handle any quick turnaround of kit that may be required. Careful planning with account management shall ensure the organisation's needs will be prepared for in advance and progressed in an organised and agreed fashion.

The company is wholly family owned in the UK and is self-financed operating from our own custom built facilities in Lancashire of 60,000 sq ft. We will be happy to produce copies of our audited accounts to satisfy any due diligence procedures and we formally extend an open invite to any of your personnel to visit us at any time.

Surridge Sport uses factories in the Far-East for production of the proposed range. We have developed strong relationships with the suppliers and have worked with them for many years. We also have employees based in the factories to help manage the supply.

OBJECTIVE

Surridge Sport aim to supply you with a commercially attractive proposal and a high performance playing and training range at competitive prices. We also guarantee a high level of contract management, quality of product and a seamless transition of supply.

EXPERIENCE

After a rigorous process involving a variety of sports brands Cheltenham College decided to stay with Surridge for our sports kit provision. We have a long-standing and good relationship with the company and one that is not based purely on kit provision. Surridge have become part of College and understand our needs and demands of the school. The quality of kit provided for all pupils is modern, a competitive price and of an excellent quality that addresses the demands of sport in these modern times. Customer service is good, both parties understand the need to work collaboratively for the pupil's best interests and to ensure they are getting the best possible experience in the ordering and delivery of their garments.

ABOUT OUR SERVICES

Direct to School

This service is mainly used by schools who like to keep stock so it can be sold through the official school shop, parent evenings or special events. Schools are able to order online through our unique ordering system, by phone, or email. Schools can opt for deliveries to arrive for you to distribute or alternatively we can offer a pupil service via your exclusive web shop we will create for your school.

Direct to Parent

Surridge Sport also offer a delivery to parent option. This options removes any associated admin that is generally associated with providing school uniform. After the initial meetings discussing the chosen range we will set up your exclusive web shop where the parents can order directly from. We will then give the parents the options to deliver to school or their chosen address.

Use your existing school wear supplier

Here at Surridge we are flexible in the way we work and if you are happy with your present supplier but would like to upgrade your school uniform then we are happy to work in conjunction with your present supplier.

ECODRI is an exclusive range of materials made with VAPADRI technology for Surridge Sport and other major sports brands.

EcoDri is a 100% recycled material that is used in the dye sublimated process for most playing garments. Surridge Sport can offer an Eco Dri material for all playing garments.

EcoDri is made from 100% recycled polyester yarn, produced from water bottles.

This process is managed through our own research and development with our material factories in the Far East. All the EcoDri material is made with VapaDri technology, meaning that the performance of the material is still to the highest standards that we offer. The EcoDri material is still at a premium in price but we are convinced that our pricing is still the most competitive on the market against our competition.
