WE OWN THE PROCESS

At Uneek Clothing, we take pride in owning every stage of production—from sourcing the finest raw materials to distributing finished garments. This ensures that every piece meets our exacting standards of quality, sustainability, and ethical responsibility. By managing the entire supply chain in-house, we stay agile, responding to market demands while maintaining competitive pricing and consistent excellence.

As part of our commitment to innovation and self-sufficiency, we have invested over £100 million into our state-of-the-art spinning mill. This investment enhances our ability to produce high-quality yarn in-house, ensuring greater control over materials, consistency in production, and a more sustainable manufacturing process. By overseeing this critical stage, we can guarantee that every garment starts with superior raw materials, reinforcing our dedication to quality from fibre to finish.

Our end-to-end control isn't just about maintaining high standards; it's a commitment to making quality garments accessible to all while embedding sustainability into everything we do. This approach allows us to create clothing that's built to last and produced responsibly, shaping the future of ethical manufacturing.

A JOURNEY OF QUALITY & SUSTAINABILITY

SOURCING RAW MATERIALS

Sustainability starts at the source. We carefully select ethically produced, high-quality fibres to ensure that every garment begins with integrity.

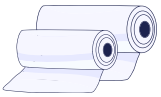

YARN SPINNING

Our in-house yarn mill transforms raw fibres into high-performance yarns, ensuring durability, sustainability, and long-term comfort.

FABRIC PRODUCTION

We weave and knit our fabrics in-house, allowing for innovative fabric blends and finishes that enhance durability, comfort, and sustainability.

DYEING & FINISHING

We use environmentally responsible dyeing processes to achieve vibrant, long-lasting colours while reducing our environmental impact.

CUTTING & SEWING

Skilled craftsmanship meets precision technology, ensuring every garment is designed for durability, performance, and comfort.

QUALITY CONTROL

Rigorous testing at every stage ensures that every Uneek garment meets and exceeds our high standards.

ECO-FRIENDLY PACKAGING & DISTRIBUTION

We package our garments using sustainable materials and ship directly from our own distribution centres, ensuring efficiency, reliability, and minimal waste.

SUSTAINABILITY AT EVERY STEP

Sustainability is woven into every stage of our process. From reducing waste and recycling materials to optimising resource use, we remain committed to a cleaner, greener future—without compromising on quality or value. By choosing Uneek, you're not just selecting clothing, you're supporting a sustainable, ethical, and innovative approach to garment manufacturing.

The Story Behind Our Green Range

At Uneek, we've always been committed to delivering high-quality workwear at unbeatable prices—because we believe excellence should be accessible to everyone. Our passion for craftsmanship and value has made us a trusted name in the industry, but at the heart of it all lies one guiding principle: Mindfulness.

Mindfulness means taking care of our team, supporting our customers' success, and ensuring our products enhance both their business and well-being. But in today's world, it also means looking after the planet.

With climate change reshaping our lives, sustainability is no longer a choice—it's a necessity. Thanks to our vertically integrated manufacturing and distribution facilities, we had the power to create real change—not just in words, but in every stitch, seam, and fibre. Workwear has evolved, becoming smarter, more stylish, and more functional. It only made sense that sustainability should be part of that transformation.

So, we did what we do best—designed a range that blends durability, style, and sustainability without inflating costs. A collection that's better for the planet and the people who wear it.

Meet the Green Range by Uneek—high-quality, eco-conscious workwear that doesn't cost the earth. Or your budget.

WASHCARE & FAQ

CARING FOR YOUR UNEEK GARMENT

WASHING

Before washing, always look at the care label and carefully follow the instructions. Most good quality detergents, washing machines and fabrics are manufactured to ensure that when the stated instructions are adhered to and the garment is washed according to the said temperature and dried as per the procedures mentioned; they will wash well and look good after each wash. The following points should be used as guidelines for all garments:

- Before washing, close all zips, undo buttons, check pockets for loose or sharp objects, flatten out collars and cuffs
- Always refer to the Label before Washing
- Always check to ensure the Washing Machine is not overloaded
- Use a good quality detergent and ensure that the right amount of detergent is used

PRINTING

Owing to the numerous processes and techniques used for printing on garments, we strongly recommend that a single garment is printed on, then washed and tested to ensure it meets your requirements before bulk printing. Care should be taken to ensure the right kind of pigments. printing dyes are used while printing and the optimum temperature/heat levels are not exceeded. Violation of standards and procedures will result in the garment loosing it's feel/lustre as well as weakening of the fabric and overall garment performance.

FAQ

GARMENT SHRINKAGE

Excessive Shrinkage is primarily due to factors such as heat and major agitation during the wash cycle. Always wash as per instructions stated on the care label.

FADING DUE TO SUNLIGHT

The effects of fading due to Sunlight are both harmful & irreversible. Constant and prolonged exposure to sunlight should be reduced as far as possible.

PILLING & BOBBLING

Abrasion and lack of care /timely washing of the garment leads to fibre balls appearing on the surface of the fabric. Remove by mild surface brushing.

TRIMS/ ACCESSORIES BREAKING OFF

Trims & accessories like zippers, toggles, pocket lining and elastic cords are constructed for normal usage. Extensive abuse of the garment involving sharp objects, work areds with machinery and even the odd outburst of brute force results in the garment being damaged. Precaution & Care should be taken at all times.

COLOUR STAINING

Wash similar coloured garments together. Do not leave damp garments together for any length of time.
